

OCF Barndoor Mounting instruction

 **Profoto**

About OCF Barndoor

The OCF Barndoor is a compact and portable Light Shaping Tool that gives you precise control of the light spread.

The four barndoors can be adjusted individually and the entire tool can be rotated 360° on the flash head, allowing you to control and shape light in an almost infinite number of ways.

The OCF Barndoor is made of metal and a strong glass fiber that makes it lightweight and extremely durable and it is easily snapped onto the off-camera flash, ready to be used in a matter of seconds.

Learn how to mount your OCF Barndoor fast and easy and how to combine it with other Profoto OCF Light Shaping Tools in this quick guide.

- 1 Mount the OCF Barndoor on your Profoto Off-Camera Flash. Press to make sure it is in place.

2 Now the OCF Barndoor is ready to be used.

How to combine the OCF Barndoor with the OCF Grids

- 1 Align the Profoto labels of the OCF Barndoor and the OCF Grid&GelHolder with the grid already mounted.
- 2 Mount the OCF Barndoor on top of the OCF Grid&Gel-Holder. Then mount it on your Profoto Off-Camera Flash.

How to combine the OCF Barndoor with the OCF Gels

- 1** Align the Profoto labels of the OCF Barndoor and the OCF Grid&GelHolder with the gel already mounted.
- 2** Mount the OCF Barndoor on top of the OCF Grid&GelHolder. Then mount it on your Profoto Off-Camera Flash.
